ROAD SALT

CMS is finalizing the 2009-10 statewide road salt procurements. Notice of Award letters will be mailed later this month to all local governments included in the procurements.

The supply issues experienced throughout the Midwest last year did not materialize this year. All local governments that asked to participate in the 2009-10 State road salt procurements will receive an award.

Joint Purchasing participation in the road salt procurements has increased substantially from last year as additional local governments have seen the benefits of the program. Nearly 700 governments will participate in the 2009-10 road salt procurements.
